Dear Hiring Manager,

I am a high-impact engineering leader with over 20 years of experience driving large-scale transformation across Platform Engineering, DevSecOps, Cloud, and Security. I combine deep hands-on technical expertise with strategic vision to help organizations move faster, build smarter, and operate more securely. Throughout my career, I have been recognized for energizing teams, unifying diverse stakeholders, and delivering scalable platforms and guardrails that enable global growth—while consistently unlocking multi-million-dollar efficiencies through innovation and FinOps excellence.

I thrive at the intersection of strategy and execution, championing modern engineering practices, AI adoption, and secure-by-design architectures that directly accelerate business outcomes. With a strong passion for continuous learning and pushing boundaries, I anticipate what's next and translate emerging technologies into practical, high-value solutions. Whether building centralized platforms, strengthening organizational security posture, or elevating engineering culture, I lead with clarity, momentum, and purpose—driving lasting impact across the enterprise.

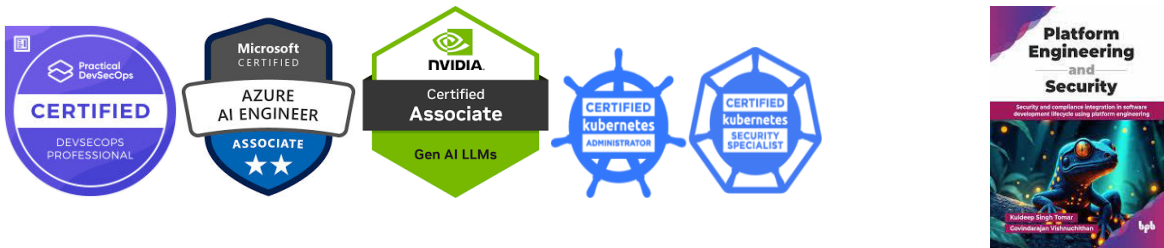

At RamSoft Inc., I led FinOps initiatives that delivered over \$1.5M in cost savings, established DevSecOps guardrails, built in-house penetration testing capabilities, and accelerated AI adoption to enhance engineering productivity. Previously at HP Inc., I architected and delivered a centralized DevOps platform, integrated threat modeling and

diagramming-as-code into CI/CD pipelines, and advanced automation through Infrastructure as Code across complex multi-cloud environments.

My technical expertise spans Kubernetes, DevSecOps, Python, and AWS, supported by certifications including CKA, CKS, Certified DevSecOps Professional (CDP), AI-102, and NCA-GenAI Associate. I am known for communicating with impact, aligning stakeholders around a shared vision, and catalyzing transformation—reflected in multiple organizational awards and recognition for Best Security Implementation in 2023. **I also authored “Platform Engineering & Security,” reflecting my commitment to industry advancement.**

I have always strived to be among the top 2% in the market in my domain. I have been very selective in picking up opportunities that are transformational in nature and bring tangible outcomes for the organization.

I welcome the opportunity to discuss how I can help shape vision, influence outcomes, and scale engineering excellence in this role. Thank you for your time and consideration.

Sincerely,

Govindarajan Vishnuchithan

EXECUTIVE SUMMARY

High-impact engineering executive with 20+ years of experience driving large-scale transformations across Platform Engineering, DevSecOps, Cloud, AI/LLM, and Security. Proven track record of delivering multi-million-dollar savings through FinOps, building secure-by-design platforms, and scaling engineering excellence globally.

PROFESSIONAL EXPERIENCE

Global VP – Platform Engineering & CISO | RamSoft Inc (Jan 2024 – Present)

- Delivered over \$1.5M in annual savings through FinOps initiatives.
- Established DevSecOps guardrails and in-house penetration testing capabilities.
- Drove AI adoption to improve engineering productivity.

Senior Architect | Play Games24x7 (Oct 2022 – Jan 2024)

- Built a platform engineering culture enabling self-service DevOps.
- Designed Kubernetes-native testing and security platforms.

Vice President/Senior Architect – Platform Engineering | Standard Chartered Bank (Aug 2020 – Oct 2022)

- Built a DevEx platform accelerating developer GTM while ensuring compliance.

Expert Architect | HP Inc (Jul 2019 – Aug 2020)

- Built a centralized DevOps platform eliminating tool sprawl.
- Integrated threat modeling and diagramming-as-code into CI/CD pipelines.

Senior Architect | SAP Labs (Jun 2018 – Jun 2019)

- Built a centralized DevOps platform eliminating tool sprawl.
- Integrated threat modeling and diagramming-as-code into CI/CD pipelines.

Technical & Leadership & Leadership Roles | Altisource, Yodlee & EdgeVerve (Mar 2004 – Jun 2018)

CORE SKILLS

- ✓ Platform Engineering, DevSecOps, Kubernetes, AWS & Multi-Cloud, Python,
- ✓ Terraform, FinOps, MLOps, AI/LLM Enablement, Security Architecture

CERTIFICATIONS

- ✓ Certified DevSecOps Professional (CDP)
- ✓ Certified Kubernetes Administrator (CKA)
- ✓ Certified Kubernetes Security Specialist (CKS)
- ✓ Azure Certified AI Engineer Associate (AI-102)
- ✓ NVIDIA Certified Generative AI & LLM Associate

EDUCATION

- MBA (Systems) – Sikkim Manipal University
- BE (Electrical) – Madurai Kamaraj University

ACHIEVEMENTS & PUBLICATIONS

- Multiple GEM & organizational excellence awards
- Best Security Implementation Award – Datacenter Summit 2023
- Author: Platform Engineering & Security (BPB Publications)
